SUMMARY

International Scientific E-Conference for PhD students, Researchers and Young University Teachers Presov 2011 was organized by the Department of Education Faculty of Humanities and Natural Sciences at the University of Presov in Presov. The conference was focused on the presentation of current knowledge and results of scientific work of PhD students, young researchers and university teachers in teaching science.

The conference created a space for discussion with experts, to exchange views on science, research and practice, as well as an ambition to create new contacts in the range of international cooperation.

The International Scientific E-Conference for PhD, young researchers and university teachers Presov 2011 thematically included the teaching of science, the contributions were accepted in these sections:

1. MULTICULTURAL EDUCATION AND ITS INNOVATION.
2. LEISURE TIME PEDAGOGY IN CHANGING ERA
3. TEACHER AND TEACHING PROFESSION
4. DIDACTICS IN THEORY AND REALITY

The conference has registered a total of 87 contributions in Slovak, Czech and English language. On 22 - 24 June 2011 the conference was made available without any restriction to all enrolled participants from universities and scientific institutes from Slovakia, Czech Republic and Poland.

As regards the first electronic edition of the conference at the Department of Education FHPV PU, this way we would like to thank especially PhDr. B. Frk, PhD. for his professional assistance to the technical implementation of electronic conferences, to doc. PhDr. J. Staskova, PhD and Iveta Bajužiková for linguistic revision of texts, doc. PhDr. M. Bačová, CSc. and doc. PhDr. M. Černotová, CSc. for the reviews of expertise, doc. PhDr. N. Krajcová, PhD., Prof. PhDr. I. Kominarec, PhD. and as well to the whole Scientific Committee for their support and professional guidance.

We believe that the knowledge presented by conference participants, will contribute not only to their further professional development, but also to further cooperation in this field of research.
